

Hosted Microsoft Exchange

Business email without the hassle and upfront cost of managing it yourself

- Get your email accounts up and running within hours with minimum hassle
- Access to Microsoft Exchange, with better performance, security and improved usability
- Available via Outlook, Outlook Web Access and Windows Mobile devices
- Securely hosted data in our state-of-art UK hosting centre
- Backed by our 99.9% availability Service Level Agreement
- Complete disaster recovery solution for your email—keep working, whatever happens

Email hosting from Technology Management frees you from the burden of managing one of your most resource hungry applications, so you can focus on running your core business. And with Hosted Exchange from Technology you can access your email securely over any internet connection at any time - whether you're in the office on the road or working from home.

Choose from two flexible packages. Both offer a number of bolt-ons to boost business performance and productivity, including integration with Microsoft SharePoint and Microsoft Dynamics business management software.
