

A proven solution built specifically for the Food Industry.

Discover how you can boost your insight and reduce the risk involved in deploying a new ERP solution with Dynamics Food.

Fewer headaches. More productivity.

Remove the need for multiple systems to manage the different parts of your ever growing organisation. Dynamics Food nurtures your business and provides you with the assurance that you have the software solution to drive your organisation forward.

Challenges associated with multiple systems

Source: Aberdeen Group, August 2013

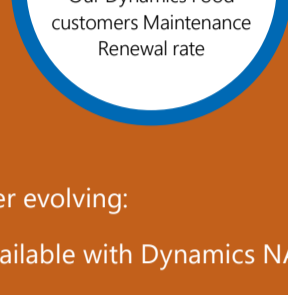

An investment that keeps on giving back.

Dynamics Food is always *growing, evolving* and supporting you *all* the way.

It's the one investment that will never need replacing.

Your feedback is crucial. You'd be surprised how many features that are suggested by our customers end up in the development roadmap.

We're always keeping in line with the latest legislations, regulations and requirements that affect the Food Industry. Dynamics Food gives you additional feature sets that have been suggested by other organisations out of the box.

Return on Investment

Stay up-to-date, running the latest versions of Dynamics NAV and Foodware at all times. With Microsoft pushing annual releases, Dynamics Food makes sure that you're always operating in pole position with the best tools available and maximising your annual investment.

What's more, with easy and rapid updates, Dynamics Food saves you valuable resources and further costly investments down the line. Bespoke solutions always require code to be re-written during upgrades. Dynamics Food alleviates such concerns.

One solution. One upgrade.

Our Dynamics Food customers have already benefited from:

- on premise or cloud based deployment
- role tailored dashboards
- CFMD accreditation (see below)
- a range of EDI integrations

It's ever evolving:

- available with Dynamics NAV 2018
- upgrade to the latest version of Foodware
- device independent usability letting you work on the go via iOS, Android and Windows based tablets and mobiles
- improved zero footprint browser experience

We've got one of the largest dedicated Dynamics support teams in the UK.

We're always here and ready to help you whenever you need us. Our superhero support gurus love providing our customers the help that they need. Flexible, responsive and trained - we have you in mind and our SLAs reflect that.

Our team undergo an array of training courses and Microsoft Certifications in their respective fields. With our graduate training scheme, Technology Management invest heavily not only into its people but the tools that they need to provide the best services to our customers.

With development teams and consultants always at hand, you can expect a clear answer that's simple to understand.

We treat every customer interaction as a priority. That means you can get on with your day safe in the knowledge that we're rapidly doing our utmost for you.

We're open all day, every day - when you need us the most. You won't have to deal with people using scripts to solve problems. Our people use their brains, their technical skills and industry knowledge.

Dynamics Food, it's got clout.

Dynamics Food doesn't just talk the talk. It's been accredited and endorsed for Dynamics NAV by Microsoft themselves.

You really can't get a better accolade. Dynamics Food has been fully vetted to ensure that it continues to pass Microsoft's stringent tests making it Certified for Microsoft Dynamics (CFMD).

As a result, you have a system that no gaps and remains compliant to strict regulations throughout its life cycle.

- Developed by a Certified Independent Software Vendor (ISV).
- Designed for unique business and industry needs by Food Industry professionals.
- Used and recommended by other food organisations.
- Low-risk, fast to implement and simple to maintain.

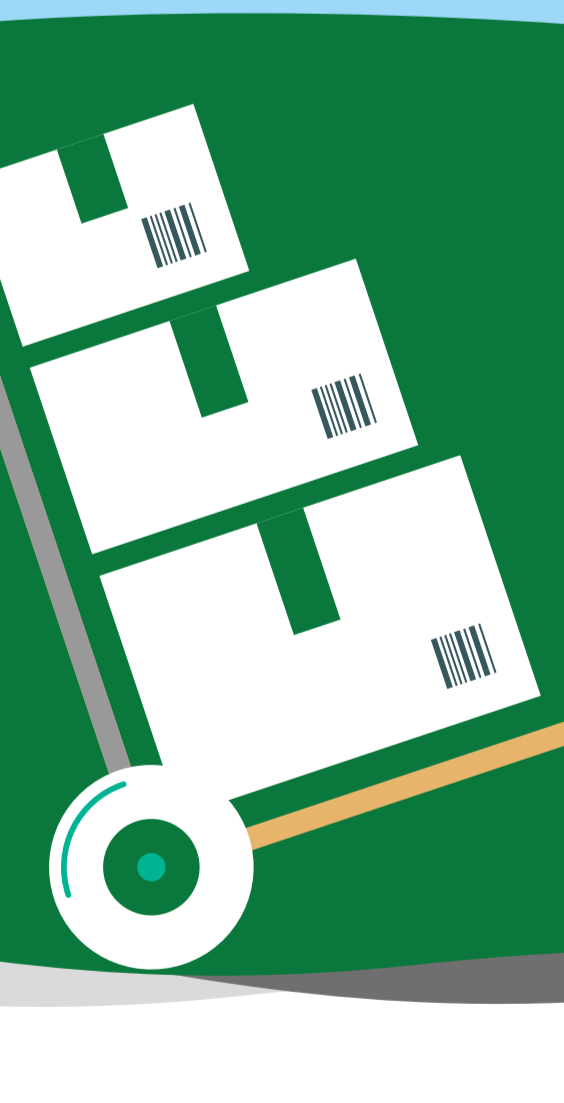

- Meets industry-specific requirements and local language, tax and governmental regulations.
- Worldwide partner community for support and protection.

"The Dynamics Food solution from Technology Management delivered a 90% fit to our detailed business requirements - straight out of the box. It was clearly designed for our industry.

With Microsoft Dynamics at its heart, we soon realised we now have a solution for the long term and one our users would find easy to use."

Andy Robey, Business Systems Manager
Faccenda

Ready, set... go!

Native EDI gets your goods distributed... faster.

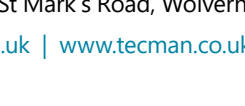

Give the phrase "a short shelf-life" a new meaning. Dynamics Food already works with the biggest supermarkets and superstores in the UK.

You'll be good to go from day one.

Transform your processes & operations with Dynamics Food

We've got the solution and the expertise to give you a smooth transition from the systems you use now, to the solution you will use for decades to come. With over 27 years' experience, 5,200+ successful projects - we have the people, the solution, the industry knowledge and the technical infrastructure to provide the software that will aid in driving your organisation forward.
