“The tablet and touch functionality has increased usability and has made it much easier to train people and get them using Dynamics NAV. Now, when one of our team members is out with a customer, they can give them real time information using the Tablet app. It is more personal, it is more interactive and you can share it – and hand it over to the customer. It is a much more collaborative experience.”

**Gary Smith**

# System Requirements for Microsoft Dynamics NAV 2017

The following sections list the minimum hardware and software requirements to install and run Microsoft Dynamics NAV 2017. Minimum means that later versions (such as SP1, SP2, or R2 versions) of a required software product are also supported.

## Client components

- Microsoft Dynamics NAV Windows Client Requirements.
- Microsoft Dynamics NAV Development Environment Requirements.
- Microsoft Dynamics NAV Web Client Requirements.
- Microsoft Dynamics NAV Tablet Client and Phone Client (in a Browser) Requirements.
- Microsoft Dynamics NAV Universal App Requirements.

## Server components

- Microsoft Dynamics NAV Server Requirements.
- Microsoft Dynamics NAV Web Server Components Requirements.
- Microsoft Dynamics NAV Database Components for SQL Server Requirements.
- Microsoft Dynamics NAV Help Server Requirements.

## Additional components and features

- Microsoft Dynamics NAV as an App for SharePoint Requirements.
- Automated Data Capture System Requirements.
- Microsoft Office Outlook Add-In Requirements.
- Microsoft Dynamics CRM Integration Requirements.
- Automated Deployment on Windows Azure Requirements.

**Note:**

Microsoft Dynamics NAV 2017 Setup installs some software if it is not already present in the target computer. For more information, see the "Additional Information" section for each component.

# Microsoft Dynamics NAV 2017

## Windows Client Requirements

The following table shows the minimum system requirements for the Microsoft Dynamics NAV 2017 Windows client.

<b>Supported operating systems</b>	<ul style="list-style-type: none"> <li>Windows 10 Pro, Enterprise, or Education (32-bit and 64-bit editions).</li> <li>Windows 8.1 Professional or Enterprise (32-bit and 64-bit editions).</li> <li>Windows Server 2012 R2 Standard or Essentials (64-bit edition).</li> <li>Windows Server 2012 Standard or Essentials (64-bit edition).</li> </ul>
<b>Hardware resources</b>	<ul style="list-style-type: none"> <li>Hard disk space: 200MB.</li> <li>Memory: 1GB.</li> </ul>
<b>Reports</b>	<ul style="list-style-type: none"> <li>Microsoft Report Viewer 2015 to run reports that use RDLC report layouts.</li> <li>SQL Server Report Builder 3.0 for Microsoft SQL Server 2014 or Microsoft SQL Server 2012 SP1 to edit RDLC report layouts.</li> <li>Microsoft Word 2013 or later to edit the layouts.</li> </ul>
<b>Instant messaging and Telephony API</b>	<ul style="list-style-type: none"> <li>Microsoft Lync 2013 or Microsoft Lync 2010.</li> </ul>
<b>Outlook client integration and mail merge</b>	<ul style="list-style-type: none"> <li>Microsoft Office 365, Microsoft Office 2016, Microsoft Office 2013 Service Pack 1 (SP1), or Microsoft Office 2010 Service Pack 2 (SP2).</li> </ul>
<b>Import and export with Microsoft Excel and Office XML and SharePoint links</b>	<ul style="list-style-type: none"> <li>Microsoft Office 2016, Microsoft Office 2013 SP1, Microsoft Office 2010 SP2, or Microsoft Office 365.</li> </ul>

**OneNote integration**

- Microsoft Office 2016, Microsoft Office 2013 SP1, or Microsoft Office 2010 SP2.

**Email logging**

- Active Directory and Microsoft Exchange Server 2010 or Microsoft Exchange Server 2013.
- Microsoft Exchange Online, or Exchange Online as part of an Office 365 subscription.

**Additional software**

- Microsoft .NET Framework 4.5.2.

**Additional information**

- Microsoft Dynamics NAV 2017 Setup installs the following software if it is not already present in the target computer:
  - Microsoft .NET Framework 4.5.2.
  - Microsoft Report Viewer 2015.
- The Microsoft Dynamics NAV Windows client is available in a 32-bit version and 64-bit version. On a 32-bit Windows operating system, the 32-bit version is run. On a 64-bit Windows operating system, the 64-bit version is run by default; however, you can also run the 32-bit version if it is required.
- Microsoft Dynamics NAV 2017 Setup can only install the Excel Add-in if Excel is present on the target computer.
- Outlook synchronisation is not supported on 64-bit versions of Office.

# Microsoft Dynamics NAV 2017

## Development Environment Requirements

The following table shows the minimum system requirements for the Microsoft Dynamics NAV 2017 Development Environment.

<b>Supported operating systems</b>	<ul style="list-style-type: none"> <li>Windows 10 Pro, Enterprise, or Education (32-bit and 64-bit editions).</li> <li>Windows 8.1 Professional or Enterprise (32-bit and 64-bit editions).</li> <li>Windows Server 2012 R2 Standard or Essentials (64-bit edition).</li> <li>Windows Server 2012 Standard or Essentials (64-bit edition).</li> </ul>
<b>Hardware resources</b>	<ul style="list-style-type: none"> <li>Hard disk space: 200MB.</li> <li>Memory: 1GB.</li> </ul>

### Reports

- Microsoft Report Viewer 2015 to run reports that use RDLC report layouts.
- Microsoft Visual Studio or SQL Server Report Builder for creating and editing RDLC report layouts. The following versions and editions are supported:
  - Microsoft Visual Studio 2015 Professional or Enterprise edition with SQL Server Data Tools installed. Important: Before you install Visual Studio, install Microsoft .NET Framework 4.6; otherwise, an error will occur when you compile or run RDLC reports. For more information, see Report error "[Visual Basic Command Line Compiler has stopped working](#)".
  - Microsoft Visual Studio 2013 Professional, Premium, or Ultimate edition.
  - Microsoft Visual Studio 2012 Professional, Premium, or Ultimate edition.
  - SQL Server Report Builder 3.0 for Microsoft SQL Server 2014 or Microsoft SQL Server 2012 SP1.
- SQL Server Report Builder 3.0 for Microsoft SQL Server 2014 or Microsoft SQL Server 2012 SP1 to upgrade reports.
- Word 2013 or later to create Word report layouts.

- Additional software** • Microsoft .NET Framework 4.5.2.
- Additional Information** • Microsoft Dynamics NAV 2017 Setup installs the following software if it is not already present in the target computer:
  - Microsoft .NET Framework 4.5.2.
  - SQL Server Native Client 11.0.
  - Microsoft Report Viewer 2015.
  - SQL Server Report Builder 3.0 for Microsoft SQL Server 2014. This is not installed if a version of SQL Server Report Builder or Microsoft Visual Studio is already present on the target computer
- If the development environment and Microsoft Dynamics NAV Server are on the same computer, then only a 64-bit operating system is supported.

# Microsoft Dynamics NAV 2017

## Web Client Requirements

The following table shows the minimum system requirements for the Microsoft Dynamics NAV 2017 Web Client.

- Supported internet browsers**
- Microsoft Edge.
  - Internet Explorer 11.
  - Google Chrome 53.0 for Windows.
  - Mozilla Firefox 49.0 for Windows.
  - Safari 9.0 and 10.0 on OSX..

For a list of browser limitations, see [Browser Limitations with the Microsoft Dynamics NAV 2017 Web Client](#).

<b>Business inbox in Outlook</b>	<ul style="list-style-type: none"> <li>• Microsoft Office 365.</li> </ul>
<b>Sending data to Excel</b>	<ul style="list-style-type: none"> <li>• Microsoft Office 2016, Microsoft Office 2013 SP1, Microsoft Office 2010 SP2, or Microsoft Office 365.</li> </ul>
<b>SharePoint Online links</b>	<ul style="list-style-type: none"> <li>• Microsoft Office 2016, Microsoft Office 2013 SP1, Microsoft Office 2010 SP2, or Microsoft Office 365.</li> </ul>
<b>Printing reports to Excel or Word</b>	<ul style="list-style-type: none"> <li>• Microsoft Office 2016, Microsoft Office 2013 SP1, Microsoft Office 2010 SP2, or Microsoft Office 365.</li> </ul>
<b>Additional information</b>	<ul style="list-style-type: none"> <li>• The browser must be able to install the Report Viewer ActiveX control to be able to print.</li> <li>• If you experience problems using the Microsoft Dynamics NAV Web client, you can try to turn off browser tools, such as translator tools that may run in the background.</li> </ul>

# Microsoft Dynamics NAV 2017

## Tablet Client and Phone Client (in a Browser) Requirements

The following table shows the minimum system requirements for the Microsoft Dynamics NAV 2017 Tablet Client and Phone Client running in a browser when used for development and testing purposes.

<b>Server component</b>	<ul style="list-style-type: none"> <li>Identical to the Microsoft Dynamics NAV 2017 Web client.</li> </ul>
<b>Supported browsers</b>	<ul style="list-style-type: none"> <li>The following desktop browsers are supported:           <ul style="list-style-type: none"> <li>Microsoft Edge</li> <li>Internet Explorer 11 (build 11.0.9600.17239) for Windows 10 and for Windows 8.1 (32-bit and 64-bit versions).</li> <li>Google Chrome 53.0 for Windows.</li> <li>Mozilla Firefox 49.0 for Windows.</li> </ul> </li> </ul>

# Microsoft Dynamics NAV 2017

## Universal App Requirements

The following table shows the minimum system requirements for the Microsoft Dynamics NAV Universal App. For the latest information, see [Dynamics NAV for Windows](#), [Dynamics NAV for iPad and iPhone](#), and [Dynamics NAV for Android tablet and Android phone](#).

<b>Supported operating systems</b>	<ul style="list-style-type: none"> <li>• Windows 10 Home, Pro, Enterprise, or Education (32-bit and 64-bit editions).</li> <li>• Android 5.0 or higher (tablet and phone).</li> <li>• iOS 9.0 or higher (iPad and iPhone).</li> <li>• Windows Phone 8.1 or higher.</li> </ul>
<b>Additional hardware</b>	<ul style="list-style-type: none"> <li>• 1 GB RAM for Android and Windows.</li> </ul>
<b>Additional software</b>	<ul style="list-style-type: none"> <li>• A third-party telephony or VoIP app such as Skype or Lync is required for placing calls from Dynamics NAV.</li> <li>• A third-party email program such as Outlook is required for sending emails from Dynamics NAV.</li> <li>• Microsoft Office 2013 SP1 or Microsoft Office 365 is required for sending data to Microsoft Excel or to Microsoft Word.</li> </ul>
<b>Additional information</b>	<ul style="list-style-type: none"> <li>• Device diagonal screen size 7" for tablets.</li> <li>• Screen resolution 960 × 510 for tablets.</li> <li>• Device diagonal screen size 4" for phones.</li> <li>• Screen resolution 854 x 480 for phones.</li> </ul>

# Microsoft Dynamics NAV 2017

## Server Requirements

The following table shows the minimum system requirements for the Microsoft Dynamics NAV 2017 Server.

<b>Supported operating systems</b>	<ul style="list-style-type: none"> <li>• Windows 10 Pro, Enterprise, or Education (64-bit edition).</li> <li>• Windows 8.1 Professional or Enterprise (64-bit edition).</li> <li>• Windows Server 2012 R2 Standard or Essentials (64-bit edition).</li> <li>• Windows Server 2012 Standard or Essentials (64-bit edition).</li> </ul>
<b>Hardware resources</b>	<ul style="list-style-type: none"> <li>• Hard disk space: 500MB.</li> <li>• Memory: 2GB.</li> </ul>
<b>Reports</b>	<ul style="list-style-type: none"> <li>• Microsoft Report Viewer 2015 for Save as Excel, Save as PDF and Save as Word functionality.</li> </ul>
<b>Microsoft Dynamics CRM integration</b>	<ul style="list-style-type: none"> <li>• Windows Identity Framework.</li> <li>• For a list of supported Microsoft Dynamics CRM versions, see <a href="#">Microsoft Dynamics CRM Integration Requirements</a>.</li> </ul>
<b>Additional software</b>	<ul style="list-style-type: none"> <li>• Microsoft .NET Framework 4.5.2.</li> <li>• Windows PowerShell 3.0.</li> </ul>
<b>Additional information</b>	<ul style="list-style-type: none"> <li>• Microsoft Dynamics NAV 2017 Setup installs the following software if it is not already present on the target computer.             <ul style="list-style-type: none"> <li>• Microsoft .NET Framework 4.5.2.</li> <li>• Microsoft Report Viewer 2015.</li> <li>• Windows Identity Framework.</li> </ul> </li> </ul>

# Microsoft Dynamics NAV 2017

## Web Server Components Requirements

The following table shows the minimum system requirements for Microsoft Dynamics NAV 2017 Web Server Components.

<b>Supported operating systems</b>	<ul style="list-style-type: none"> <li>Windows 10 Pro, Enterprise, or Education (64-bit edition).</li> <li>Windows 8.1 Professional or Enterprise (64-bit edition).</li> <li>Windows Server 2012 R2 Standard or Essentials (64-bit edition).</li> <li>Windows Server 2012 Standard or Essentials (64-bit edition).</li> </ul>
<b>Web server</b>	<ul style="list-style-type: none"> <li>Internet Information Server 10, Internet Information Server 8.5, Internet Information Server 8.0, or Internet Information Server 7.5 with the following features enabled:             <ul style="list-style-type: none"> <li>.NET Extensibility 4.5.2.</li> <li>ASP .NET 4.5.2.</li> <li>ISAPI Extensions.</li> <li>ISAPI Filters.</li> <li>Request Filtering.</li> <li>Windows Authentication.</li> <li>Static Content.</li> <li>HTTP Activation.</li> </ul> </li> </ul>
<b>Reports</b>	<ul style="list-style-type: none"> <li>Microsoft Report Viewer 2015 to run reports that use RDLC report layouts.</li> </ul>
<b>Additional software</b>	<ul style="list-style-type: none"> <li>Microsoft .NET Framework 4.5.2.</li> <li>Windows PowerShell 3.0.</li> </ul>

- Additional information**
- Microsoft Dynamics NAV 2017 Setup installs the following software if it is not already present on the target computer.
    - Microsoft .NET Framework 4.5.2.
    - Internet Information Server 10, Internet Information Server 8.5, Internet Information Server 8.0, or Internet Information Server 7.5 depending in the operating system, with the required features enabled.
  - For more information about installing IIS, see [How to: Install Internet information Services \(IIS\) for Microsoft Dynamics NAV 2017 Web Client](#).
  - To avoid crashes on the IIS server with many concurrent users, download and install the update from here: [Update for the .NET Framework 4.5 in Windows 8, Windows RT and Windows Server 2012](#).

# Microsoft Dynamics NAV 2017

## Database Components for SQL Server Requirements

The following table shows the minimum system requirements for Microsoft Dynamics NAV 2017 Database Components for SQL Server

- Supported operating systems**
- Windows 10 Pro, Enterprise, or Education (64-bit edition).
  - Windows 8.1 Professional or Enterprise (64-bit edition).
  - Windows Server 2012 R2 Standard or Essentials (64-bit edition).
  - Windows Server 2012 Standard or Essentials (64-bit edition).

- Hardware resources**
- For more information, see [Hardware and Software Requirements for Installing SQL Server 2016](#). From this page, you can also access requirements for other versions of SQL Server.

- SQL Server**
- Microsoft SQL Server 2016 Express, Standard or Enterprise.
  - Microsoft SQL Server 2014 Express, Standard or Enterprise.
  - Microsoft SQL Server 2012 Service Pack 2 Express, Standard, or Enterprise (64-bit editions only).
  - Azure SQL Database V12 Standard and Premium service tiers.

For more information, see [Installation Considerations for Microsoft SQL Server](#).

- Additional information**
- Microsoft Dynamics NAV 2017 Setup installs the following software if it is not already present on the target computer.
    - SQL Server 2016 Express (64-bit edition).
 If the operating system on the target computer does not support SQL Server 2016 Express, Setup displays a pre-requisite warning. In this case you should exit Setup and then update the operating system on the computer to one that does support SQL Server 2016 Express. Then run Setup again.

# Microsoft Dynamics NAV 2017

## Help Server Requirements

The following table shows the minimum system requirements for Microsoft Dynamics NAV 2017 Help Server.

<b>Supported operating systems</b>	<ul style="list-style-type: none"> <li>• Windows 10 Pro, Enterprise, or Education (64-bit editions).</li> <li>• Windows 8.1 Professional or Enterprise (64-bit edition).</li> <li>• Windows Server 2012.</li> <li>• Windows Server 2012 Essentials.</li> </ul>
<b>Hardware resource</b>	<ul style="list-style-type: none"> <li>• Hard disk space: 500MB.</li> <li>• Memory: 2GB.</li> </ul>
<b>Web server</b>	<ul style="list-style-type: none"> <li>• Internet Information Server 10, Internet Information Server 8.5, Internet Information Server 8.0, or Internet Information Server 7.5. The following features must be enabled:             <ul style="list-style-type: none"> <li>• .NET Extensibility 4.5.2.</li> <li>• ASP .NET 4.5.</li> <li>• ISAPI Extensions.</li> <li>• ISAPI Filters.</li> <li>• Request Filtering.</li> <li>• Windows Authentication.</li> <li>• Static Content.</li> <li>• HTTP Activation.</li> </ul> </li> </ul>
<b>Additional software</b>	<ul style="list-style-type: none"> <li>• Microsoft .NET Framework 4.5.2.</li> </ul>

- Additional information**
- Microsoft Dynamics NAV 2017 Setup installs the following software if it is not already present on the target computer.
    - Microsoft .NET Framework 4.5.2.
    - Internet Information Server 10, Internet Information Server 8.5, Internet Information Server 8.0, or Internet Information Server 7.5, depending on the operating system, with the required features enabled.
  - For more information about installing IIS, see [How to: Install Internet information Services \(IIS\) for Microsoft Dynamics NAV 2017 Web Client](#).
  - Windows Search must be enabled on the computer that you install the Microsoft Dynamics NAV Help Server on. If you install on Windows Server 2012, and Windows Search is not enabled as a file service, Microsoft Dynamics NAV 2017 Setup adds the service. However, the changes do not take effect until the computer has restarted.

# Microsoft Dynamics NAV 2017

## Automated Data Capture System Requirements

The following table shows the minimum system requirements for Automated Data Capture System (ADCS) for Microsoft Dynamics NAV 2017.

- Additional software**
- MSXML version 6.0.
  - Telnet or Microsoft Windows HyperTerminal.
  - VT100 Plug-in for each computer on which you install ADCS.
  - Microsoft Loopback Adapter.

- Additional information**
- HyperTerminal is no longer included with Windows. For more information, see [What happened to HyperTerminal?](#) in the Windows Help.
  - VT100 Plug-in acts as a virtual Telnet server.

# Microsoft Office Outlook Add-in Requirements

The following table shows the minimum system requirements for the Microsoft Outlook Add-in.

<b>Supported Outlook Applications</b>	<ul style="list-style-type: none"> <li>Outlook 2013 or later, Outlook Web App, OWA for iPad, OWA for iPhone, and OWA for Android.</li> </ul>
<b>Supported Exchange Servers</b>	<ul style="list-style-type: none"> <li>Exchange Online.</li> </ul>
<b>Supported Authentication</b>	<ul style="list-style-type: none"> <li>The Microsoft Dynamics NAV Server must be configured to run with NavUserPassword, ACS, or AAD Credentials Type.</li> </ul>
<b>Supported Browsers</b>	<ul style="list-style-type: none"> <li>When using the Add-In on Outlook Web App or Outlook, your computer must be running a supported browser listed in the Microsoft Dynamics NAV Web client Requirements.</li> </ul>
<b>Supported Operating Systems</b>	<ul style="list-style-type: none"> <li>When using the Add-In on OWA for iPad, OWA for iPhone, or OWA for Android, your mobile device must use a supported Operating System listed in Microsoft Dynamics NAV Universal App Requirements.</li> </ul>
<b>Additional software</b>	<ul style="list-style-type: none"> <li>Microsoft Office 2016, Microsoft Office 2013 SP1, or Microsoft Office 2010 SP2 (32-bit edition).</li> </ul>

## Microsoft Dynamics CRM Integration Requirements

The following table shows the system requirements for integrating Microsoft Dynamics NAV 2017 with Microsoft Dynamics CRM.

- |                            |  |
|----------------------------|--|
| <b>Additional software</b> | <ul style="list-style-type: none"> <li>• Microsoft Dynamics CRM Online 2016, Microsoft Dynamics CRM Online 2016 Update 1, or Microsoft Dynamics CRM 2016.</li> <li>• Microsoft Dynamics CRM Online 2015, Microsoft Dynamics CRM Online 2015 Update 1, or Microsoft Dynamics CRM 2015.</li> </ul> |
|----------------------------|--|

## Microsoft Dynamics NAV as an App for SharePoint Requirements App Requirements

The following table shows the minimum system requirements for Dynamics NAV as an App for SharePoint.

- |                                    |   |
|------------------------------------|---|
| <b>Supported operating systems</b> | <ul style="list-style-type: none"> <li>• Windows Server 2012 R2 Standard or Datacenter (64-bit edition).</li> <li>• Windows Server 2012 Standard or Datacenter (64-bit edition).</li> </ul> |
|------------------------------------|---|

- |                            |   |
|----------------------------|---|
| <b>Additional software</b> | <ul style="list-style-type: none"> <li>• SharePoint 2013 Service Pack 1.</li> <li>• SharePoint Online.</li> </ul> |
|----------------------------|---|

## Microsoft Dynamics NAV 2017

### **Automated Deployment on Microsoft Azure Requirements**

Automated deployment of Dynamics NAV on Microsoft Azure by using the provisioning tools is only supported on Azure virtual machines that are running Windows Server 2012.

For additional requirements for specific Microsoft Dynamics NAV components, refer to the other sections in this topic.

## Contact Us

Technology Management helps Manufacturing and Distribution companies enhance performance with Microsoft Dynamics NAV, Dynamics CRM and Office 365 as well as the supporting infrastructure. Having delivered over 3,000 successful projects, we've plenty of experience implementing business systems, Microsoft Dynamics solutions and the technical infrastructure to support them.

We are a Microsoft Gold Certified Partner for ERP & CRM and can deliver Microsoft Dynamics solutions on your own IT infrastructure, hosted in our UK data centre or in the Microsoft Cloud. Based in the Midlands, we support clients across the UK and further afield.

Talk to us today for a jargon-free discussion on how Technology Management can help your organisation enhance performance:
