Elevating Quality: Standard
Business Central and Clever
Quality Compared

18th & 19th NOVEMBER 2025

What we'll cover

1. Quality Checks in Standard BC
2. What's Coming?
3. Clever Quality

Quality Checks in Standard BC

In Short – Not a Lot!

Various workarounds for handling QC in standard.

- Alternative Locations
- QC Bin
- Manually Blocking Lots
- External Spreadsheets

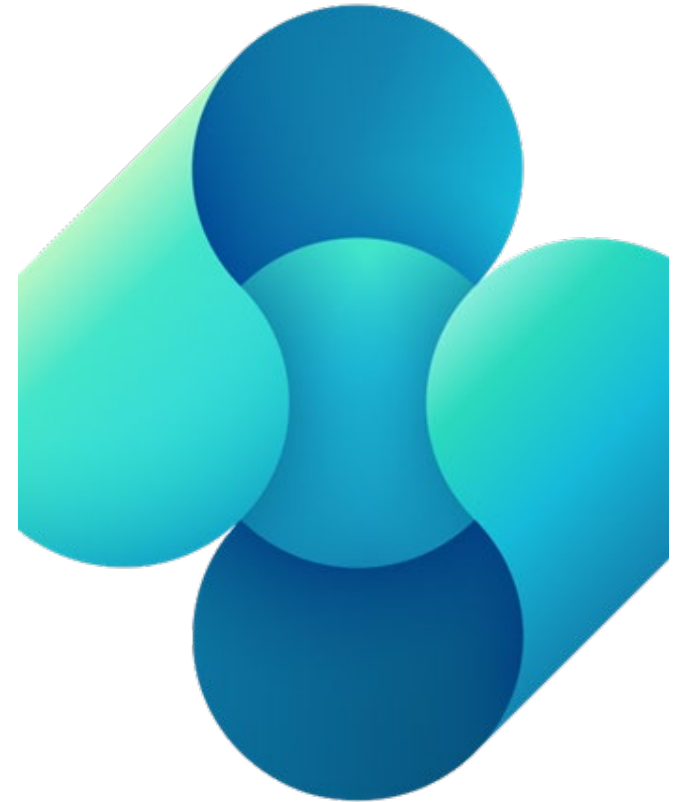

All have potential downsides.

What's Coming?

What's Coming?

- Quality Management App Released Dec. 2025
 - Already delayed once, so keep an eye on it!
- <https://learn.microsoft.com/en-us/dynamics365/release-plan/2025wave2/smb/dynamics365-business-central/evaluate-quality-incoming-goods-materials>

What's Included?

- **Key Features:**
- **Quality Checks:**
 - Triggered on **Purchase Receipts**, **Production Output**, and **Assembly Output**
 - Can be **manual or scheduled**
- **Scope Definition:**
 - Apply checks to items, item categories, lots or serial numbers
- **Parameters to Assess:**
 - Physical attributes like weight, dimensions, density
- **Quality Test Plans:**
 - Define triggers and testing parameters
- **Quarantine Procedures:**
 - Freeze items or block usage until checks are complete
- **Reporting:**
 - Generate **Quality Certificates** and **Certificates of Analysis**
 - View **Quality Status Overview** for items

Clever Quality vs Standard

Clever Quality vs Standard

Standard

- Incorporates Item Attributes into quality check parameters
- Some basic standard certification reports

Clever Quality

- Quality Orders can be triggered prior to receipt being posted
 - Good if there's an obvious issue and you don't want to post a receipt
- Quality Checks can be triggered for in-process Production Orders
- Rework Orders
- Standard only quarantines the stock
- Machine/Equipment Checks
- Sampling or Interval testing

Demo

Thank you.
