

DIY Apps! Build a low code app with our experts using Power Apps & Power Automate. Explore the benefits and see how easily you can create one for yourself.

Kelly, Ellie & Jason

CUSTOMER DAY 2023

Power App – Holiday Request

Objective of the day

- Build a Holiday Request App where we will learn how to...
 - Create an environment
 - Create a solution and publisher
 - Create tables and fields in Dataverse
 - Create an App
 - Create a workflow for approvals
 - Add some design to our app

Developer Environment

Don't stress, we are going to build today's app in a Developer environment – which is specific to you as an individual. It's a personal playground for Power Platform.
